

Scope and Purpose

- a) This document will address readiness with respect to Delivery.
- b) The Review Recorder will be responsible for documenting the information gathered at the readiness review meeting to produce this document.
- c) Please complete this checklist during the Delivery Readiness Review to verify all preparatory work has been completed and all requirements specified under Clause 6.5 (Delivery) of the Agreement have been complied with to allow the Company to issue a Delivery Certificate with respect to this New Train.

The Delivery Readiness Review is conducted to determine if the New Train under review is ready to advance to the Acceptance Tests Review Phase by deciding whether the activities are complete and verifying their compliance with the requirements of the Agreement.	
Review Date:	29/09/2023
Scheduled Acceptance Date:	31/10/2023

Delivery Readiness Review Checklist - Activity Description						
Category	Description	Outcome				Evidence
		Yes	Yes with conditions	No	N/A	
Design Review	Has the Design Review been completed to the satisfaction of the Project Manager?	✓				Please refer to Appendix A attached for further details.
Works Tests	Have all the Works Tests been successfully completed and a Works Test Certificate issued?		✓			Please refer to Appendix E attached for further details.
Specification	Does the New Train comply, in all material respects, with the Specification, save for minor defects as agreed between the Company and the Contractor and which the Contractor undertakes to rectify prior to Provisional Acceptance?	✓				Please refer to Appendix D attached for further details.

By signing this document, I agree that the New Train, the subject of this review is eligible to receive a Delivery Certificate.	

Appendix A

Design Review Completion

The scope of the Design Review is specified in the following:

- Part 5 (Management Communications/Meetings) of Schedule 3 (Agreement Management) of the Manufacture and Supply Agreement (the MSA);
- Part 6 (Design Process) of Schedule 3 (Agreement Management) of the MSA.

Design Review Process:

1. Seven stage Design Review Process was undertaken between May 2014 and September 2016. The Critical Gate Review (design freeze) was confirmed by the Project Manager with letter PRA-GIB-MSA-0041 dated 24 October 2014 and in subsequent Design Freezes as may be confirmed by the Project Manager from time to time.
2. The Design Review Register (DRR) records all agreed subsequent minor changes.
3. The New Train, subject of this confirmation, is EM 01 20 180.
4. EM01 20 180 is built to Design Baseline 10.3.1 with minor design changes as agreed in GIB-PRA-MSA-001741 dated 22nd March 2022.

Supporting documents:

- Design Review Register, version EGO
- Design Review Open Items List, version EFO

Appendix B

Compliance with the Specification

The Project Manager of the Company confirms that the New Train EM 01 20 180 complies, in all material respects, with the Specification:

- Schedule 17 (Specification) of the MSA;
- List of applicable standards, document reference "DTD0000496779_CO_PRASA_List of Applicable Standards_EN.pdf"; and
- Accepted derogations as listed hereafter and submitted to RSR for concurrence:
 - Fire & Smoke Secondary Suspension;
 - Fire & Smoke UHF Radio;
 - Fire & Smoke Electronics & Electrical components;
 - Fire & Smoke Performance of Floor Assembly;
 - Derogations against the South African National Standard SANS 10383-1:2003 as listed in the Design Scrutiny #09 submitted by PRASA to RSR;
 - Headlights.

Save for the following minor defects:

- Minor defects identified and agreed between the Company and the Contractor during the PC10 quality inspection held on 30 May 2022 and which the Contractor undertakes to rectify prior to Provisional Acceptance:

Item	Description of Defects	Action Required
1	GIB0000000380 ver A1_Defects Report for TS180 PC10	Refer to Appendix D for further details

- Open items of the Design Review Open Items List and the Design Review Register as included in Appendix A.

None of these minor defects prevent the Delivery of the New Train EM 01 20 180.

Appendix C

Necessary Consents

YQ related to the movement of the New Train from Dunnottar to Wolmerton	YQ for Running of Diesel Locomotives from Braamfontein Yard to Dunnottar. YQ related to the movement of the EMU from Dunnottar to Wolmerton Yard.	YQ PEMU018 PRASA EMU Wagons
YQ, related to the testing on the de Wildt line under a "full occupation" conditions	YQ for PRASA NEW TRAIN TESTING DE WILDT LINE.	2963 EMU HIGH SPEED TESTING DE WILDT CORRIDOR JUNE 2023 – DECEMBER 2023
RSR No-Objection certificate for testing & commissioning	PRA-GIB-MSA-0232	PRA-GIB-MSA-0232 Letter of No Objection
